

**ANNUAL CAMPUS SECURITY,  
CRIME AWARENESS  
AND  
FIRE REPORT  
2013**

August 1, 2013

Dear Meharry Medical College Employees, Students and Visitors:

The Meharry Medical College (MMC) Department of Campus Safety and Security (DCSS), in collaboration with several college departments and allied government agencies, have developed a very proactive and comprehensive crime prevention initiative. The report that follows highlights components of the college's crime prevention strategies and also reports on crime statistics as required by federal legislation known as the Clery Act.

In compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, the DCSS is responsible for compiling and reporting specified crime statistics and certain referral information to the United States Department of Education and the Tennessee Bureau of Investigation (TBI).

The MMC 2013 Annual Security Report was written with data collected by the DCSS, reviewed by the MMC Office of Legal Affairs/Compliance Officer and approved by the Associate Vice President for Administration. The report is made available to the campus community by providing important information that can assist in fostering a safe campus. Also presented in the report are the following MMC documents:

- Policy Statement on Substance Abuse for Faculty, Staff, and Students;
- Policy Statement on Procedures on Sexual Harassment;
- Policy Statement on Procedures on Racial, ethnic, or religious Harassment/Discrimination;
- Policy Statement on Sexual Assault
- Policy Statement on Domestic and Dating Violence

Please review the entire report. Vital components in the fight against crime are awareness about environmental factors that may lend support to a crime's occurrence, and education about the types of crimes typically reported to the MMC DCSS. With this knowledge everyone can help to strengthen campus safety.

Sincerely,

Theresa McKinnon, MBA, MS - Director  
Campus Safety and Security

## **Annual Campus Security Report**

### **2013**

This report is written annually to comply with the Federal [Jeanne Clery Disclosure](#) of Campus Security Policy and Campus Crime Statistics Act”, formerly known as the “Student Right to Know and Campus Security Act”.

Safety on the college campus is a natural source of concern for parents, students and college employees. Education, Research and Patient Care – the business of Meharry Medical College (MMC) – can take place only in an environment in which students and employees feel safe and secure. MMC recognizes this and employs a number of security measures to protect its community.

Although the campus has a small-town feel and neighborly attitude, and is perceived to have a relatively low crime rate, crime prevention remains a high priority. MMC does its part to ensure the safety of its students, patients, visitors and employees. A professionally trained and supervised security force, the faculty, staff and students all share in the responsibility of making the MMC campus a safe place to study, work and live.

#### **MISSION STATEMENT**

- Uniquely nurturing, highly effective educational programs
- Preeminence in health disparities research
- Culturally sensitive, evidence-based health services

**A. PROCEDURES AND RESPONSIBILITY FOR PREPARING THE ANNUAL REPORT TO COMPLY WITH THE JEANNE CLERY DISCLOSURE OF CAMPUS SECURITY POLICY AND CAMPUS CRIME STATISTICS ACT.**

The Director of Campus Safety and Security in cooperation with the Associate Vice President for Administration and the Legal Affairs Office/Compliance Officer prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. This report's full text is available on the MMC Web site at:

<http://www.mmc.edu/security/documents/2013AnnualSecurityReport.pdf>

This report is prepared in cooperation with the local law enforcement agencies surrounding our campus, residential managers, college legal counsel, deans of each school and the discipline committee. Annually, the Associate Vice President for Administration sends a letter to all non-security/police "Campus Security Authorities" informing them of their responsibility to report crimes to the Department of Campus Safety and Security (DCSS) and/or the local police and asking for information on any crimes not reported. Each entity provides updated information on their educational efforts and programs to comply with the Act.

Campus crime, arrest and referral statistics include those reported to the DCSS and designated campus officials including but not limited to directors, deans, department heads, legal affairs officers, advisors to students or student organizations and local law enforcement agencies. This report is reviewed and edited by the Associate Vice President for Administration (1005 Dr. D.B. Todd Jr. Blvd., Nashville, TN 37208-3599, phone 615-327-6294). The Director of Campus Safety and Security reviews all crimes reported by non-security/police campus security authorities to minimize double counting of incidents.

Meharry Medical College will submit the Annual Campus Security Report to the U.S. Secretary of Education using a web-based instrument designed to collect campus crime data. The Annual Campus Security Report will be submitted during the August 18 to October 13, 2011 collection period. Crime data from all colleges and universities will be submitted to the general public at <http://ope.ed.gov/security>.

Students, faculty and staff members receive an e-mail notification that the full 2013 Annual Report can be accessed on the MMC Web site ([www.mmc.edu](http://www.mmc.edu)) or obtained from the DCSS Office. Additionally, a copy is available for reviewing at all Security Posts on campus (the lobby of West Basic Science Building, the Stanley S. Kresge Learning Center and the Dental School. This report will be available on the College Web site ([www.mmc.edu](http://www.mmc.edu)) for up to seven years.

Further questions about this report may be directed to the Director of Campus Safety and Security or the Associate Vice President for Administration.

## **B. POLICY ON REPORTING CRIME: YOUR ROLE IN SAFETY ON CAMPUS**

You can help keep the Meharry Medical College (MMC) campus a safe place for everyone by promptly reporting crimes or suspicious circumstances. If you witness a crime, it is your responsibility to report the crime to the DCSS. All Meharry students and employees are required to report incidents of theft, misuse, or abuse of MMC property promptly to the DCSS.

The DCSS Office is located in the basement of Lyttle Hall, where a dispatcher is available/on-duty 24-hours a day and can be reached at 615-327-6254. You may also report crimes/criminal offenses to security officers in patrol vehicles, on foot or by calling 615-327-6254. Additionally, you may report crimes/criminal offenses to "Campus Security Authorities" (Deans, Associate Deans, Assistant Deans, Director of Student Services, Manager of Student Housing Facilities, Director of Campus Safety and Security). It is Meharry Medical College's policy to investigate every report and if technical expertise or additional investigative help is needed, the Metropolitan Nashville Police (MPD) or the Tennessee Bureau of Investigations (TBI) may be called to assist.

If a crime occurs off-campus, the Metropolitan Nashville Police Department is likely to be the primary investigative agency with MMC investigators providing support, if requested. MMC Security Officers do not provide security service to off-campus property, including recognized fraternity and sorority organizations, nor are activities off-campus recognized by MMC authority. From an off-campus phone you may reach the Metropolitan Nashville Police Department (MPD) in an emergency by dialing 911. From on-campus phones and for off-campus non-emergencies you may reach the MPD by dialing 615-862-8600.

Persons who are victimized while on the premises of the Herman Street Apartments (located at 1601 Herman Street) or the Meharry Medical Arts Center (located at 1919 Charlotte Avenue) should report the incident to the Metropolitan Police Department and to the DCSS, so accurate accounting of crime(s) may be compiled.

If you are the victim of a crime and do not want to pursue action within the college system or criminal justice system, you may still want to consider filing a confidential report. A suggested approach for confidentiality would be to make contact with your clergy, or the campus Chaplain/Director of Counseling Services at 327-6915, or one of the Campus Security Authorities (Deans, Associate Deans, Assistant Deans, VP-Administration, Director of Student Services, Manager of Student Housing Facilities, Director of Campus Safety or a Security Officer).

## **C. LAW ENFORCEMENT**

MMC Campus Safety and Security Officers have the authority to ask persons for identification and to determine whether individuals have lawful business on the MMC Campus. DCSS Officers do not possess arrest powers. MMC security officers have the authority to enforce safety and security related College policies to include the enforcement of parking rules. The DCSS has a combination of armed and unarmed officers providing security at assigned posts and assistance to local police in enforcing laws on campus. All security officers are certified by the State of Tennessee Department of Commerce and Insurance and must be re-certified every two years.

Other agencies with enforcement jurisdiction on campus include the Metropolitan Nashville Police Department, the Tennessee Highway Patrol (THP), the Tennessee Bureau of Investigation, and the Tennessee Alcohol Law Enforcement Agency. The DCSS enjoys a healthy working relationship with local law enforcement agencies as they continue to provide valuable assistance to the College.

For faculty, staff and students living off-campus and off-campus student organizations, the Metropolitan Nashville Police Department (MPD) is the primary provider of law-enforcement services. The DCSS provides on-campus assistance to the Metropolitan Police Department when requested.

All crimes reported to DCSS receive a preliminary investigation by the DCSS. Where a suspect(s) can be identified, DCSS officers preserve evidence and assist local police investigators in establishing probable cause to prosecute the offender(s) in state or city court. With misdemeanor offenses, the offender(s) may be referred to Student Affairs for disciplinary action and/or referred to the local District Attorney for criminal prosecution. All felonies are investigated initially by the Department of Campus Safety and Security to determine if a crime has been committed and to gather basic facts prior to the request for the MPD to investigate. The police investigator(s) will prepare a presentation to the local District Attorney's Office for prosecution, in cooperation with the College. The local District Attorney decides whether criminal charges will be filed and will conduct the prosecution that follows. The decision to prosecute in a court of law does not exclude the possibility that disciplinary action may be initiated by MMC.

DCSS also adheres to the Robert Nottingham Campus Crime Scene Investigation Act of 2004. This act states that if an offense of rape occurs on a college campus the chief campus security officer of the institution has the authority to lead the investigation and be assisted by the local law enforcement agency. If an unattended death occurs on a college campus the local law enforcement agency is the lead for the investigation and the campus security assists. In both instances the agencies are expected to participate in a joint investigation.

## **D. POLICIES ON LOCKS AND LIGHTING**

Meharry Safety and Security Officers lock or cause the Kantech Door Locking System (Proximity Card Readers) to lock administrative and academic buildings 24 hours a day or are timed to allow access during normal working hours. All buildings are closed on holidays unless prior arrangements have been made with Campus Safety and Security. Campus

buildings will reopen the next work day as scheduled by the Kantech System. The West Basic Sciences Building can be accessed 19 hours each day, with a security post at the front entrance 24-hours a day, 7 days a week. Additionally, some multi-use buildings, such as Stanley S. Kresge Learning Resources Center and the Lloyd C. Elam Mental Health Center, may make special arrangements for locking and unlocking.

Residence halls are locked twenty-four hours a day, 7 days a week. Resident students access their buildings using their Proximity/Identification Card and may enter at will. All residence hall visitors and guests must be escorted at all times. Residents are reminded that security is breached if doors to residence halls are propped open.

DCSS Officers periodically check exterior doors to campus buildings as well as routinely patrol inside academic buildings. Generally, students, faculty and staff members should not remain in academic or administrative buildings during “closed” hours, unless prior arrangements have been made with the DCSS.

MMC’s Department of Campus Operations is responsible for providing maintenance updates to the campus. Campus Operations personnel identify and trim trees and shrubbery that may interfere with lighting. In planting and maintaining shrubbery around buildings and near thoroughfares, ground crews try to preserve lines-of-sight for pedestrians and vehicular traffic. All Meharrians are asked to report inoperable lights or hazardous conditions to the DCSS or to the Campus Operations Department.

## **E. POLICY ON NOTIFICATION OF PUBLIC DANGER (TIMELY WARNINGS)**

### **Mass Notification System**

The Mass Notification System used at the College broadcasts immediate e-mail to all users, and a text message and twitter to those who have chosen to participate in the program. The College will, without delay, immediately notify the campus community, by sending a timely warning, upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty, or staff occurring on the campus. Taking into account the safety of the community, the College will determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. After the initial notification, follow-up information may be disseminated to the community via the messaging system or by email, as needed.

### **Policy Statement for Mass Notification**

*Mass Notification System for Emergency Alerts (e2Campus)*

**Reason for Policy** - Establishes the guidelines by which the e2Campus system and emails will be used for distribution of emergency/timely warning alerts to students, faculty, and staff that would be affected directly by a critical incident which poses an imminent threat to their health or safety given their presence on the College grounds and/or its surrounding areas.

**Policy Statement**— Meharry Medical College maintains an email and voice messaging service which enables College administrators to create voice and email messages for

emergency/timely warning alerts to members of the College community and send them to a list of subscribed cell phone or other wireless device users, as well as email accounts. Voice and email message emergency alerts are one element of College's comprehensive emergency response protocol that provides for rapid notification to students, faculty, and staff about situations or events that are occurring on campus and its surrounding areas. The service is designed for those conducting regular Meharry related business in the immediate area. The emergency messaging service, with which Meharry has contracted, requires users to opt-in to the service by subscribing their cell phone or wireless device number and e-mail address.

*Definition of Terms in Statement:*

**Emergency Alerts/Timely Warnings** - Notifications regarding critical incidents that pose an imminent threat to the health or safety of the Meharry community. Examples of such emergency incidents include, but are not limited to severe weather, hazardous materials incidents, and acts of criminal violence that broadly threaten the safety of the Meharry community.

**Email, Text Messages and Twitter**—Brief, direct text notifications received on a cellular phone or similar text-communication handheld device, and emails sent to the individual's account and other email account.

*Creation and Distribution of Emergency Messages*

Designees from the College offices have the authority to approve and disseminate emergency messages.

1. Office of the President
2. Associate Vice President for Administration
3. Associate Vice President for Information Technology
4. Associate Vice President for Marketing and Communications
5. Director of Campus Safety and Security

Once approved, emergency messages will be distributed by a trained system administrator to subscribers of the messaging service prior to adoption.

Creation of Message templates ("standard messages") will be reviewed with the Office of Marketing and Communications.

*Follow-Up after a e2campus Message is sent:*

**Notifications** —Immediately after sending an emergency alert message, the designee who created the message shall notify the other designated offices that the message has been sent and shall describe the rationale for activating e2campus. The purpose of this communication is to ensure that all five offices are sharing consistent information and are not sending duplicate messages. The Emergency Response Team (ERT) will subsequently coordinate with the appropriate institutional departments, in accordance with Meharry Emergency Preparedness Plan, to communicate additional information to the College community related to the critical incident using other communication modes (e.g., e-mail, web posting, etc).

**Archiving e2campus Messages**— The Department of Campus Safety and Security (DCSS) will maintain a log of all situations warranting a mass notification/timely warning and will

maintain copies of the official notices for up to seven years. Timely Warnings will be given whenever one or more of the mandatory reporting incidents occur: Murder, Sex Offense, Robbery, Aggravated Assault, Burglary, Motor Vehicle Theft, Manslaughter or Arson, as well as any significant act of nature emergency.

#### *Renewal and Maintenance*

The Office of Information Technology designee will publish and announce that the data base for the Student and Employee group will be reviewed and updated on an annual basis prior to the fall incoming students. A sustained marketing effort of this communication tool will be made for all students, faculty, and staff throughout the year using existing web technology (portal) and traditional media (emails, postings). The e2campus Notification System will be tested twice per year to evaluate overall system capability and effectiveness.

#### *Procedures*

Detailed Emergency Procedures on critical incident notification can be found in the Emergency Preparedness Plan (EPP), which can be found at:

<http://www.mmc.edu/security/docs/epp.pdf>

### **F. THE DAILY CRIME LOG**

The Daily Crime Log is published to provide the MMC community with information on security-related incidents that occur on campus or on surrounding off-campus property in a timely manner. A [Daily Crime Log](#) will be available to the public at four locations on campus: the administrative office of the Department of Campus Safety and Security; the security desk located in the lobby of the Kresge Learning Resources Center; the security desk in the lobby of the Dental School and the security desk located in the lobby of the West Basic Sciences Building. The Daily Crime Log will be updated within two business days of the last reported crime to the DCSS. However, if there is clear and convincing evidence that the release of such information would jeopardize an ongoing criminal investigation or the safety of an individual(s), cause a suspect to flee or evade detection or result in the destruction of evidence, such information may be delayed until that damage is no longer likely to occur from the release of such information.

### **G. TENNESSEE SEX OFFENDER AND PUBLIC PROTECTION REGISTRY**

The Campus Sex Crimes Act (CSCPA) of 2000 is a federal law that provides for the tracking of convicted sex offenders enrolled at, or employed by, institutions of higher education. The CSCPA is an amendment to the Jacob Wetterling Crimes against Children and Sexually Violent Offender Act. The Tennessee Sexual Offender and Violent Sexual Offender Registration, Verification, and Tracking Act of 2004 were established in T.C.A. 40-39-201 et. seq. and became effective August 1, 2004. All persons who meet the definition of sexual offender or violent sexual offender and live, work or attend school in Tennessee must register with the appropriate registering agencies as defined by law. In Davidson County, sex offenders are required to register with the Metropolitan Nashville Police Department. Tennessee Code Annotated section 40-39-206 makes some Tennessee Sexual Offender Registry information about sex offenders who committed certain enumerated offenses on or after July 1, 1997, public record, and requires that the Tennessee Bureau of Investigation (TBI) post the information on the TBI's internet home page. Information concerning these offenders can be found on this web site or by calling 1-888-837-4170 from 8 a.m.-4:30 p.m., Monday-Friday, excluding holidays.

The names of sexual offenders who committed sexual offenses before July 1, 1997, are confidential, and subject to release only if the specific sex offender is deemed to pose a threat to the community. It is the policy of the TBI that local law enforcement is best suited to make the determination as to who poses a threat in their community. Therefore, for the names of offenders on the Sexual Offender Registry prior to July 1, 1997, you should contact your local law enforcement agency; in Nashville, you should contact the MPD.

The registry may be viewed locally at the TBI, the MPD or accessed directly on-line at: [http://www.ticic.state.tn.us/SEX\\_ofndr/search\\_short.asp](http://www.ticic.state.tn.us/SEX_ofndr/search_short.asp)

## **H. CRIME, ARREST, AND VIOLATION STATISTICS**

The Department of Campus Safety and Security records statistics of on-campus reported crimes, according to the methods, standards and definitions provided by the Uniform Crime Reporting System of the Federal Bureau of Investigation. Meharry Medical College has filed statistics with this system since 1978. The MMC Student Disciplinary Committee records statistics on disciplinary actions and judicial referrals. The Associate Vice President for Administration conducts an annual survey and maintains statistics of crimes not reported to police, but reported by non-police/campus security authorities.

To the extent that reports can be obtained from local law enforcement agencies, college crime statistics recorded since October 2004, include incidents that occurred at off-campus locations occupied by registered students/organizations or on college-owned property that is not part of the main campus.

## **J. SEXUAL ASSAULT POLICY**

### **Purpose**

Meharry Medical College is an academic health center dedicated to the transmission and advancement of knowledge, understanding, scientific research and patient care. It is the obligation of all members of the college community to help maintain an environment wherein academic freedom flourishes and in which the rights of each member of the college community are respected. Acts of sexual assault can jeopardize the health and welfare of members of the college community. In an effort to address such threats to the quality of campus life, Meharry Medical College adopts this policy.

### **Definition**

For the purpose of this policy, "sexual assault" is defined as engaging in vaginal, oral, or anal sexual intercourse with, or inflicting other sexual invasion upon, any person without that person's consent. "Other sexual invasion" is defined as the intentional touching of another person's genitalia, groin, breast, buttocks, or clothing covering them, or forcing an unwilling person to touch another's intimate parts as listed above, without consent. An action is "without that person's consent":

- When inflicted upon a person who has not freely and actively given consent.
- When consent is given as a response to force or the threat of force.
- When inflicted upon a person whom one knows (or reasonably should know) to be physically incapacitated by the use (voluntarily or involuntarily) of alcohol and/or other drugs, including "date rape: drugs to the extent that they are unconscious, unaware, or otherwise physically helpless.

The scope of this policy shall be limited to conduct which occurs on college premises or which adversely affects the college community and/or the pursuit of its objectives. Students of the college are responsible to the college for certain acts committed off-campus. This policy may apply to off-campus conduct when the conduct is likely to interfere with the educational process or the orderly operation of the college; or the continued presence of the student on campus is likely to endanger the health, safety, or welfare of the college community; or when the conduct has an adverse affect of the college's pursuit of its mission. The action of the college with respect to any alleged assault shall be made independently of any off-campus authority. The prospect of criminal charges does not preclude the possibility of college jurisdiction over the case.

### **Guide For Students Who Have Been Sexually Assaulted**

Sexual assault is an act of violence. Students who are victims of an assault may be in a state of shock and disbelief, and may be feeling a variety of emotions such as fear, anger, and helplessness as well as shame and guilt. A victimized student may not know who to trust or turn to for help. This guide is designed to give students resources to help in recovery as well as preventing an assault from happening again. Students are encouraged to seek help from the resource people in this guide. Students who are victims may receive a change in academic or living situations, when requested by the

victim and the requested changes are reasonably available. There are trained professionals available at Meharry Medical College who can provide information and support. Students are encouraged to use these resources.

If a student is sexually assaulted he or she should:

**GET TO A SAFE PLACE AS SOON AS POSSIBLE**

**TRY TO PRESERVE ALL PHYSICAL EVIDENCE.** Do not wash, douche, use the toilet, or change clothing, if it can be avoided. If changing clothes is a must, put all clothing worn at the time of the attack in a paper bag, not plastic.

**GET MEDICAL ATTENTION** as soon as possible to address physical health needs and to collect important evidence in the event of a later decision to take legal action.

**CONTACT** the Department of Campus Safety and Security by calling 615-327-6254 or the Metropolitan Nashville Police at 615-862-8600. A call to the college DCSS does not mean that one has chosen to bring criminal charges. Security Officers are trained to assist in securing medical attention and professional counseling while assuring that evidence of the incident is collected and preserved in the event of a later decision to prosecute.

**TALK WITH A COUNSELOR** who can provide emotional support and give information about resources while clarifying confidentiality. For college counseling services, call Counseling and Psychological Services, 615-327-6915 or 615-327-6156.

**CONFIDE IN SOMEONE WHO CAN BE TRUSTED,** a close friend or resident assistant, for support through recovery. If preferred, a member of the college staff who is knowledgeable about recovery resources can be chosen to be a support person.

**PAST ABUSE**

A common response to sexual assault is to withdraw and never tell anyone. Whether the assault occurred recently or years ago, assistance is available. For information, call Counseling Services at 615-327-6915 or 615-327-6156.

**MALE VICTIMS**

Although women are more often the victims of sexual assault, men can be victims, too. All the recovery services available for women are also available for men.

**MEDICAL TREATMENT/MEDICAL SERVICES**

It is important to seek medical attention to assess and treat any physical injuries that may have been sustained. Evaluation of sexual assault includes testing and treatment for sexually transmitted diseases, medication to prevent pregnancy, and documentation

of evidence of the assault which would aid criminal prosecution. Physical evidence should be collected immediately, ideally within the first twenty-four hours. It may be collected later than this, but the quality and quantity of evidence may be diminished.

The Student Health Services Center is located adjacent to the Pediatric Clinic on the second floor of the Meharry Clinics. All students enrolled at Meharry Medical College are eligible to use the Student Health Center for their health care needs. Students are seen on a walk-in or appointment basis. The Student Health Center is open Monday-Friday from 8 a.m.-5 p.m.

The Student Health Services Center is staffed full time by a certified nurse practitioner who is supported by board-certified primary care physicians. Clinicians certified in various specialties such as general surgery, orthopedics, ophthalmology, internal medicine, pediatrics and obstetrics/gynecology also are available to assist students with their health care needs. In addition, the Student Health Services Center can provide access to mental health services staffed by board-certified psychiatrists.

A certified nurse practitioner is available for telephone consultation on illnesses, injuries, lab results or other health concerns and questions. The phone information nurse is available Monday-Friday from 8 a.m.-5 p.m. at (615) 327-5757.

Students needing care when the Student Health Center is closed should go to the Emergency Room at Nashville General Hospital at Meharry.

#### Transportation

The Meharry DCSS or Metropolitan Government Paramedics are available to transport sexual assault victims to the hospital, if necessary. To arrange for transportation, call the DCSS at 615-327-6254 or the Metropolitan Government Paramedics at 911.

This policy is intended to ensure that Meharry Medical College provides and maintains an environment that is appropriate to its educational mission and free from harassment and intimidation. This policy also ensures that the College is in compliance with its legal and ethical obligations, that policies exist to respond to allegations of sexual harassment, and that all persons are provided information about this policy. **Policy**

Sexual harassment inhibits an individual’s academic or work performance, or creates an intimidating, hostile, or demeaning education or working environment. Faculty member(s) or other instructional personnel shall not engage in an amorous relationship with a student who is enrolled in a course being taught by the faculty member or whose academic work is being supervised by the faculty member, even when both parties appear to have consented to the relationship. Such relationships may easily be perceived as promoting or showing inappropriate favoritism to student(s) based on non-meritorious consideration. Relationships between faculty and students outside the instructional context may also prove problematic, particularly when the faculty member participates in decisions that may reward or penalize students.

Relationships between residents/students and patients, during treatment or after termination of treatment, may lead to negative consequences: therefore, such relationships are discouraged.

**Procedures**

The Compliance Officer will inform the complainant and the accused of the results of the investigation and actions to be taken to resolve the complaint.
- Upon completion of the investigation, a written notice of disposition shall be forwarded to the accused as well as the complainant.

## **Regulations**

Complaints and cases of sexual harassment will be dealt with promptly. Any member of the institutional community found to have engaged in sexual harassment will be disciplined. Disciplinary action for violation of this policy shall include, and not be limited to, any of the following courses of action, as appropriate, based upon the severity of the violation: written warning and reprimand, with letter being placed in employee's, student's, or contractor's official file, and appropriate counseling; suspension; termination of employment or contractual relationship, or expulsion.

Every effort shall be made to protect the privacy of all parties involved. Such efforts are intended to protect the complainant and any witnesses from retaliation and to assure that the rights of the accused are protected. All parties involved in sexual harassment complaints should be cautioned about discussing the case outside of the resolution process.

## **L. DOMESTIC AND DATING VIOLENCE**

### **Purpose**

Meharry Medical College is an academic health center dedicated to the transmission and advancement of knowledge, understanding, scientific research and patient care. It is the obligation of all members of the college community to help maintain an environment wherein academic freedom flourishes and in which the rights of each member of the college community are respected. Acts of domestic violence jeopardize the health and welfare of members of the college community. In an effort to address such threats to the quality of campus life, Meharry Medical College adopts this policy.

## **Definitions**

Domestic violence is defined as acts of violence committed by a current or former spouse of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction. Aspects of domestic violence are physical violence such as kicking, hitting, pinching, choking or biting; sexual violence such as forcing a partner to take part in a sex act without consent; emotional violence which is verbal or written violence such as isolation, intimidation, belittling, cyber bullying/harassment or "outing" someone against their will; and economic abuse which is withholding financial resources to intimidate, threaten, or cause a person to remain in a relationship because of access to finances.. Other aspects of domestic violence include, but are not limited to, dating violence and stalking.

Dating violence means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim; and where the existence of such a relationship shall be determined based on a consideration of the following factors: the length of the relationship; type of relationship; and the frequency of interaction between the persons involved in the relationship.

Stalking means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or suffer substantial emotional distress.

The scope of this policy shall be limited to conduct which occurs on college premises or which adversely affects the college community and/or the pursuit of its objectives. Students of the college are responsible to the college for certain acts committed off-campus. This policy may apply to off-campus conduct when the conduct is likely to interfere with the educational process or the orderly operation of the college; or the continued presence of the student on campus is likely to endanger the health, safety, or welfare of the college community; or when the conduct has an adverse effect of the college's pursuit of its mission. The action of the college with respect to any alleged assault shall be made independently of any off-campus authority. The prospect of criminal charges does not preclude the possibility of college jurisdiction over the case. However, domestic violence, dating violence and stalking are criminal offenses and should be reported to the proper authorities.

## **Reporting Domestic or Dating Violence**

Domestic or dating violence or related incidents that occur on campus should be immediately reported to the Department of Campus Safety and Security. Emergency medical personnel will be contacted if necessary or requested or transportation will be provided in the event of minor injuries to the hospital.

It is important to be able to go to a safe place and find someone you can trust. The counseling center has on call counselors to assist students after hours and information is available for off campus assistance. The DCSS will assist with the reporting procedures of the Metropolitan Nashville Police Department. Additional assistance can be arranged through the police department's Domestic Violence Unit to include alternative housing and necessary orders from the court. Further assistance can be provided if necessary such as changing or removing campus directory information and email addresses. Your safety is of utmost importance.

8. If I disagree with my partner am I afraid of the response being violent or threatening?

- Counseling in ethics, as it relates to human values, human dignity and divine creation.
- Counseling in death and dying, as it relates to loss and grief.

### **N. MISSING STUDENT POLICY**

If a member of the College Community has reason to believe that a student is missing, they should *immediately* notify the Department of Campus Safety and Security (DCSS) at 615-327-6254, whether or not the student resides on-campus. All possible efforts will be made to locate the student to determine his or her state of health and well-being through the collaboration of DCSS, Student Services and Enrollment Management (SSEM), and the appropriate School's Office of Student Affairs. If the student is an on-campus resident, the DCSS will secure authorization from SSEM or the College's Legal Office to make a welfare entry into the student's room. If the student is an off-campus resident, the DCSS will informally enlist the aid of the neighboring police agency having jurisdiction. Concurrently, College officials will endeavor to determine the student's whereabouts through contact with friends, associates, and/or employers of the student. Whether or not the student has been attending classes, labs, recitals, and scheduled organizational or academic meetings, or appearing for scheduled work shifts, will be established. If located, verification of the student's state of health and intention of returning to the campus is made. When and where appropriate, a referral will be made to Counseling Services and/or Student Health. If not located, notification of the family and local law enforcement within 24 hours of receiving the initial report is made to determine if they know of the whereabouts of the student. If the student is an off-campus resident, appropriate family members or associates are encouraged to make an official missing person report to the law enforcement agency with jurisdiction. If the missing student is under the age of 18 and is not an emancipated individual, the DCSS will notify the student's parent or legal guardian immediately after the DCSS has determined that the student has been missing for more than 24 hours. The DCSS will cooperate, aid,

and assist the primary investigative agency in all ways prescribed by law. Upon closure of the missing person investigation, all parties previously contacted will be advised of the status of the case. All students, faculty, and staff have the option to identify confidentially an individual to be contacted by the College in the event the student is determined to be missing for more than 24 hours. If a student has identified such an individual, the DCSS will notify that individual no later than 24 hours after the student is determined to be missing. Students who wish to identify a confidential emergency contact can do so through Banner Self-Service or the Registrar's Office in SSEM.

## **O. REPORTING CRIMES/INCIDENTS to the Department of Campus Safety and Security**

Call 615-327-6254 on any campus telephone to contact the Department of Campus Safety and Security. A victim's choice to report an incident to the college's security office does not necessarily represent a choice to prosecute or to pursue college disciplinary action. The victim may choose whether to participate in legal and disciplinary proceedings at a later time.

When the DCSS is called, contact will be made with a professional law enforcement officer (all felonies are reported to local Law Enforcement) who can:

- Help secure medical attention and emotional support from resources on campus and off campus;
- Assist in preserving evidence and preparing a case for court or college disciplinary proceedings;
- Assist in protecting the victim and others from future victimization.

If the choice is made to call DCSS, an officer will listen to the statement of the victim. The officer will ask questions about the scene of the crime, any witnesses, and what happened before or after the incident. The officer will ask the victim to describe or identify the assailant. If the assault happened off campus, the officer will help the victim contact the proper law enforcement agency, if so desired.

## **P. CRIMINAL INVESTIGATION AND CHARGES**

The Department of Campus Safety and Security is required by law to provide information on all sexual assaults and other felonies to the local police department, who will notify the local District Attorney; but in the vast majority of cases, the decision to pursue criminal charges usually rest with the victim.

If the victim chooses to pursue criminal charges, a lawyer from the local District Attorney's office will provide state representation throughout the proceedings. A lawyer from the District Attorney's Office and/or a personal attorney may also provide legal advice to assist the victim in making a decision on prosecution.

DCSS officers will conduct a preliminary investigation of all crimes which occur on campus and make notification to local police, when required. If technical expertise or additional investigative help is needed, the Tennessee Bureau of Investigation may be called to assist at the discretion of the investigating officer. If crimes happen off campus, the Metropolitan Police Department will be the primary investigative agency with Meharry DCSS Officers

providing support if needed. Police Officers understand that any questioning can be difficult for victims and understand that a victim may request the presence of a support person during police interviews.

If a person chooses to pursue criminal prosecution and if it is possible for the assailant to be apprehended, the suspect will be taken before a magistrate and charged with the appropriate offense.

## **Q. DISCIPLINARY PROCEDURES FOR CASES INVOLVING STUDENTS**

### Student Disciplinary Action

The Student Discipline Committee reviews charges related to breaches of rules, regulations, policies and procedures of Meharry Medical College by a student. Members of the Committee shall be appointed for a two-year term except for the student member, who shall be appointed on an annual basis. The Student Discipline Committee and its chairperson shall be appointed by the president or his/her representative.

Any person may inform any member of the Student Discipline Committee of an allegation of a breach of rules, regulations, policies and/or procedures of Meharry Medical College within the jurisdiction of the Student Discipline Committee. The Student Discipline Committee shall determine whether the allegations or charge, if proved true, is governed by the procedures for review and appeal of disciplinary action governing non-academic matters.

If the Student Discipline Committee determines that the allegations or charge is governed by the procedures for review and appeal of disciplinary actions, the chairperson shall send a written notice to the student stating the charge(s) and notice of a hearing before the Student Discipline Committee. The student shall receive notice of the scheduled hearing no later than 72 hours before the hearing. The Student Discipline Committee may grant additional time, at its discretion, if the student's request is reasonable.

In the event of a challenge of whether a matter should be governed by the procedure for review and appeal of academic actions or procedure for review and appeal of disciplinary actions, the Senior Vice President for Health Affairs/Dean of the School of Medicine shall have sole responsibility for determining which procedures shall govern. Any such challenge must be submitted in writing to the Senior Vice President for Health Affairs/Dean of the School of Medicine no less than 24 hours before the scheduled hearing.

The student shall have the right to be present at the hearing to present witnesses, and to rebut the evidence against him/her and to have a Meharry Medical College student or faculty member accompany him/her. Legal counsel may be present but may not participate in the hearing.

The hearing will be an informal one, not governed by technical rules of evidence as employed in a court of law, but the Student Discipline Committee may accept any information it deems pertinent to the charges made.

The Student Discipline Committee shall render its decision based upon the evidence presented at the hearing. The standard for determining whether the student has breached a

rule, regulation, policy or procedure, and is subject to disciplinary action, shall be whether a preponderance of the evidence supports the Committee's decision. The burden of proof shall be upon the College.

The Student Discipline Committee shall maintain a record of the hearing pending final determination of the charges against the student.

The Student Discipline Committee shall notify the student of its decision in writing by certified or registered mail at the address as maintained in the Office of Admissions and Records within fifteen days.

A student may appeal the decision on the grounds as set forth in the following paragraph by writing a letter of appeal to the President no later than 72 hours from the receipt of the decision of the Student Discipline Committee.

The President will determine whether there has been substantial compliance with the published administrative procedures and whether there is sufficient evidence to support the decision of the Student Discipline Committee, and notifies the student by certified or registered mail at the student's address as recorded in the Office of Admissions and Records. The President shall also inform the dean of the student's school and the Associate Vice President for Advancement and College Relations.

The President may request the student and/or the Student Discipline Committee to provide additional information prior to issuing a decision.

The President's decision is final. The student shall be notified of the President's decision in writing no later than fifteen days from the receipt of the student's appeal.

The student shall be allowed to continue in the academic program during proceedings unless extraordinary circumstances exist such as exemplifying conduct which may endanger the welfare of others.

Breach of rules, regulations, policies and procedures governed by the disciplinary procedures shall include, but are not limited to:

- Furnishing false information to the college with the intent to deceive;
- Knowingly giving false information or testimony during the investigation or hearing of a disciplinary matter;
- Forgery, alterations, destruction, damage, or misuse of college documents; records, or identification;
- Physical abuse of any person on college-owned or controlled property; or conduct which threatens or endangers the health or safety of any person;
- Theft;
- Unauthorized use of or entry to college facilities and/or unauthorized possession of keys to college facilities;
- Failure to comply with directives of college officials acting in the performance of their duties;
- Violation of written college policies and regulations as stipulated herein or as announced by authorized personnel;

- Violation of the terms of probation;
- An attempt to commit or to be an accessory to the commission of any act in violation of other standards of conduct;
- Breach of any municipal, state or federal laws rules ordinances on college property;
- Breach of any rules of sister institutions while on rotations;
- Breach of recognized ethical and professional standards applied to student's area health professional schools.

The Student Disciplinary Committee's sanctions may include expulsion, suspension from one or more classes for a specified or an indefinite period of time, probation, reprimand and restriction of privileges. The Student Disciplinary Committee may use its discretion in requiring alternative disciplinary actions.

## **R. DRUGS AND ALCOHOL ON CAMPUS**

### **Substance Abuse—Drug Free Campus—Smoking**

Any student or employee found to be in violation of the following drug and alcohol policy (without proper authority) may be subject to one or more of the disciplinary sanctions described. Meharry Medical College reserves the right to exercise discretion in the imposition of disciplinary sanctions.

The use or possession of alcoholic beverages on campus or at any college-sponsored activity may result in required participation in a drug or alcohol treatment of rehabilitation program and placed on probation, suspension, expulsion, termination or referral of the matter to the local police agency for criminal prosecution.

Each student has a responsibility to pursue his/her academic endeavors in a safe and conscientious manner. In order to ensure that this responsibility is met, students must be free from the effects of alcohol and other performance impairing substances. Meharry has instituted this policy to address the risk of substance abuse at the college and to make certain that a high quality of academic achievement and integrity is maintained.

#### **Purpose**

Meharry Medical College regards substance abuse (alcohol and chemical dependencies) as an illness which may respond to medical treatment. This policy seeks to allow any student suffering from this illness the opportunity to receive the same careful consideration and referral for treatment as those having other illnesses. Student status will not be jeopardized by a voluntary request or referral for diagnosis and treatment of alcoholism or chemical dependency.

#### **Definition**

Alcohol and chemical dependencies are defined as illnesses in which a student's use of alcohol or other chemicals interferes with his/her academic and/or clinical performance, interpersonal skills and relationships.

## **Policy**

- When a student is suspected to have an alcohol or chemical dependency problem, it should be discussed with the Student Affairs Office in the respective school and/or the Counseling Center. As with any apparent medical problem the student should be referred to a physician. A professional evaluation will determine whether or not the student has an abuse problem and requires treatment.
- When a student's performance is unsatisfactory and it has been medically determined that alcohol or chemical dependency is at least partly the cause, the student must accept referral and agree to a program of treatment. ## HIGHER EDUCATION OPPORTUNITY ACT CAMPUS FIRE SAFETY ANNUAL COMPLIANCE REPORT

### Overview

The Higher Education Opportunity Act (Public Law 110-315) became law in August 2008. It requires all United States academic institutions to produce an annual fire safety report outlining fire safety practices, standards, and all fire-related on-campus statistics. The following public disclosure report details all information required by this law as it relates to Meharry Medical College.

### General Statement of Meharry Medical College Student Resident Housing

At Meharry Medical College, all residence halls (Dorothy Brown Hall and the Royal Towers) are covered with integrated fire sprinkler systems and a redundant fire alarm monitoring systems which are monitored 24 hours/day, seven days/week by the ADS Security Company and the Department of Campus Safety and Security.

### Residence Hall Fire Safety Systems

Residence Hall	Fire Detection System (Smoke, Heat, Ion)	Fire Suppression System	Fire Extinguishers present	Redundant Monitoring System	Fire Drills Each Year
Dorothy Brown Hall	Yes	Full System	Yes	Yes	2
Royal Towers	Yes	Full System	Yes	Yes	2

\*A partial system is defined as having sprinkler in the common areas only.

### Fire Safety Improvements and Upgrades

Meharry Medical College annually reviews the fire systems in our residence halls and will make upgrades, repairs or revisions when problems are identified.

### Residence Hall Fire Drills

Fire drills are held once a semester for each residence hall. Fire drills are mandatory supervised evacuations of a building for a fire. The fire drill is scheduled with the department of campus safety and security, the individual residence hall staff, and the local fire station. The supervised fire drill is scheduled within the first 3 weeks of the beginning of the semester. Evacuation route maps are posted in each resident room showing where the closest egress route is and the assembly area outside. Students who fail to leave the building during a fire drill are reported to the Resident Hall Manager and to the Dean of his/her respective school.

### Fire Life Safety Education

Residence Life policy on fire safety is to prohibit usage of electrical cooking appliances, candles, and specific electrical equipment individual rooms. Candles or open flame are prohibited in residence halls. There are limits on the number electrical appliances allowed in a specific room. Residence Life policy on evacuation from residence halls is in the student handbook, Emergency Preparedness Manual and is discussed with residence when they move into the residence hall, as follows: In case of a fire, please sound the nearest fire alarm and evacuate the building. Evacuation procedures are as follows:

- Know the emergency routes from your room and hall.

- Check to see if your door is hot or has smoke around it. If so, stay in your room and wait to be evacuated by firefighters.
- Shut your door tightly when you leave.
- Exit your building and follow the directions of staff members.
- DO NOT remain in close proximity to the buildings. Remain in designated locations until cleared for re-entry by either the hall manager, or a member of the residence life staff acting in behalf of the hall manager or by Campus Safety and Security personnel.
- If you can use a fire extinguisher in your hall without endangering yourself, please do so. However, our first concern is your safety. Do not attempt to extinguish a fire if your personal safety becomes threatened.

A fire safety inspection is conducted in the first semester to ensure residents are abiding by all fire safety regulations. Residence Life staff training on fire life safety is held annually by the Environmental Health & Safety Officer.

### **Fire/Life Safety Inspections**

During fall semester a residence life staff person will do a fire/life inspection of your room. You will be notified as to when these inspections will take place, and you will be required to allow the staff person, or his or her stand-in, entrance to your room for inspection. If you or your roommate are not home, the room will be inspected without you present and a note will be left indicating the status of your room. Should a violation be found, you will receive a letter indicating what the violation was, and you will be expected to meet immediate compliance. If the violations have not been corrected after an unannounced re-inspection, you and/or your roommate will be fined and will be subject to disciplinary action. Some common violations are as follows:

- Extension cords and multi-tap electric units without a breaker
- Items stored closer than 18 inches from a sprinkler head
- Blocking of electrical panels
- Blocking of egress (exit) pathways
- Evidence of burning of candles, incense, or tobacco products
