PURPOSE: The purpose of this policy is: To describe the procedures for responding to accidental occupational exposures, illness, or injury.

POLICY: Students who are accidentally exposed to blood and body fluids via needle stick, mucus membranes, or exposure of non-intact skin; or become ill or injured, as the result of a clinical assignment, will be evaluated at the Student Health Center during the Center's normal operating hours. Students must also notify the Office of Student and Academic Affairs of such injury. A reportable event form must be completed in addition to individual affiliate hospital or clinical forms. If the Student Health Center is closed, the student will be referred to Nashville General Hospital Emergency Room or the appropriate medical facility in the community where they are assigned.

DEFINITIONS:

Occupational Exposure – Reasonably anticipated skin, eye, mucus membrane, or parenteral contact with blood or other potentially infectious materials that may result from the performance of an employee's duties.

PROCEDURE: Preceding the initial clinical exposure of all students, educational sessions are given which deal with the occupational exposures to infectious and environmental hazards anticipated in the day to day practice of medicine. These sessions are mandatory and cover instruction in the prevention of occupational exposures; procedures for evaluation after exposure; and the effects of infectious and/or environmental disease or disability on student educational activities. The sessions will be given during orientation and are mandatory for any student who rotates to any affiliate hospital or clinical site. Any student who has not completed these sessions will not be allowed to begin or participate in any clinically related activities.

In the event of an exposure, students must notify the Clinical Education Director (by phone, texting or calling), of such injury. A reportable event form must be completed in addition to individual affiliate hospital or clinic forms.

The Student Health Center staff will triage the student and record the following information

Policy: Evaluation of Occupational Exposure, Illness, and Injury	Applicability: PA Sciences Program Students

- Student's current immunization status with regard to Hepatitis B and tetanus vaccines and any other pertinent laboratory information;
- Type of injury, when and how the injury occurred, and any pertinent information regarding the patient involved and/or incident.

If the student is located at a distant site, or in cases of dire emergency, the student should first contact the designated administrator at the work site. Any necessary emergency medical and/or nursing care should be made available to the student through the regular procedures in effect at the facility to which the student is assigned. The morning following discharge, the student must report to the Meharry Student Health Center for evaluation and clearance to return to duty. The student is to bring copies of the discharge instructions and any other information describing the treatment that was rendered. The student will be referred for further follow-up/management if indicated.

Mandatory Blood borne Pathogen / Needle Stick Plan / Airborne Exposure and Procedure:
As members of our medical community, Meharry provides needle stick coverage to all clinical students. You are enrolled in the mandatory pathogen exposure / accident coverage which provides a benefit in case you are exposed to blood or other body fluids through a needle stick or body fluid splash / spill event.

For students who elected the Meharry Medical Insurance Plan, you are covered 100%. In the event of a needle stick:

- Seek treatment from a MMC or participating provider.
- Use your UHC medical plan ID card
- There will be no charge for medical services at point of service.
- If Prescriptions are needed, you will pay applicable copayment and receive reimbursement from UHC.
- Must use UHC participating pharmacy.

For students who declined the Meharry Medical Insurance Plan, you are covered 100% through Star Underwriter. You will be sent an ID card just for this coverage.

- Seek treatment from a MMC or a provider of your choice.

- Use your medical plan ID card received from Star Underwriter.
- Notify MMC of incident.
- Complete Reimbursement form for STARR
- \$12 annual fee.

For a student who becomes tuberculin skin test positive during the course of their medical training due to airborne exposure, they will be evaluated and followed routinely in the Student Health Service without charge. The student must notify the Office of Student and Academic Affairs and the Student Health Services in order for the student to be cleared to return to clinical rotations. The college will assume responsibility for the cost of the initial chest x-ray(s) and such medication as deemed appropriate by Meharry Student Health Service.
