PURPOSE:

To provide Meharry Medical College Physician Assistant Program (MMC PA) students with the MMC PA Program Supervised Clinical Practice Experiences (SCPEs) Policy.

POLICY:

The MMC PA Program coordinates all clinical rotation sites and preceptors for all required clinical rotations. Prospective or enrolled students are not required to provide or solicit clinical sites or preceptors (A3.03). Clinical rotation sites and/or preceptors may be suggested by students. In order for the student recommended clinical rotation site or preceptor rotation to be approved, the preceptor must agree to take a minimum number of students as determined by the MMC PA Program. The student may make the initial contact with the prospective preceptor or clinical site. The program will evaluate the request and make a final determination. Student who recruit new SCPE sites are not guaranteed placement at that site. All SCPE placements are determined by the clinical team under the direction of the Clinical Education Director. All Supervised Clinical Practice Experiences (SCPE) must undergo a thorough vetting and affiliation agreement process to be a new site or retained as a site.

A signed clinical affiliation agreement or memorandum of understanding may specify that certain program policies will be superseded by those at the clinical site (A3.01).

DEFINITIONS:

Supervised Clinical Practice Experiences (SCPE): Supervised student encounters with patients that include comprehensive patient assessment and involvement in patient care decision making and which result in a detailed plan for patient management.

PROCEDURE:

1. Preceptor application is reviewed and evaluated in regard to the MMC PA Program's current SCPE needs. The preceptor's credentials are verified through the preceptor's State Medical Board, State Board of Osteopathic Examiners, the National Commission on Certification of Physician Assistants (NCCPA), or the State Board of Nursing.
2. All SCPEs must occur with (B3.05, B3.06a-c):
