Dental Oath of Commitment

I, (student state name) as a new member of the Meharry Medical College family, will accept the responsibilities and opportunities that have been afforded to me as a dental student.

I understand that my primary responsibility as a dental student is to obtain all knowledge and experiences of the academic program that are presented to me. I pledge to learn all that I can and to be completely prepared for all classes and examinations at all times.

I accept the challenge to strive for superior excellence didactically.

I will respect my fellow classmates, faculty, and staff and the administration. I ask that my classmates be attentive to my well-being as I will be to theirs. I acknowledge my obligation to support and sustain the honor and integrity of the profession. I will present myself as a professional at all times, both in and outside of the academic environment. I will live out the student honor code throughout my dental matriculation, understanding that this is preparing me for the health professional that I am training to be.

Now being admitted to the family of dentistry, I pledge myself to the service of humanity, my patients, my community, and my future profession. I will use my skills to serve all in need, with openness of spirit and without bias. The health and well-being of my patients will be my first consideration.

All this I pledge with pride in my commitment to the profession and as a Meharry Medical College, School of Dentistry student.

I take this oath freely and upon my honor.
